

# ***CALIFORNIA REGIONS WRITTEN REPORT***

Over the past week you have learned about California's regions. You will now conduct a Webquest research on these four regions and write a report using the information that you have gathered.

## **The following guidelines must be met:**

Research conducted using the internet, books, or textbook. You must cite at least TWO resources used.

Typed, Black, 12 point Arial or Times New Roman font, and turned in using Google Classroom

## **Each region must include the following information:**

1. Name of the region
2. Four or more facts about the geography
3. What is the climate during the Spring, Summer, Fall and Winter ?
4. Name some of the counties or major cities in the region
5. Include information about some of the plants that grow in this region
6. Include some of the animals living in the area
5. List some of the MAJOR natural resources and what they are used for from the area
6. What major crops, if any, thrive in this area?
7. List at least 2 major tourism and recreation areas in your region. (Ex: National Parks like Yosemite, Sequoia National Forest)

You will have a note catcher outline for each region. You will fill out each note catcher before you begin writing.

Expect to write at least 2 paragraphs for each region.
